Pierre Bourdieu is arguably one of the twentieth century's greatest socio-philosophical thinkers and his writings have much to offer anyone interested in the ways that people value, consume and produce architecture.

Bourdieu for Architects (Thinkers for Architects): Webster ...

There is nothing like an emergency to make you realise the value of practical ideas. When the chips are down, and death rates are up, the world wants answers—especially from its sharpest thinkers. As Prospect revisits the task of identifying the leading minds of the moment, in the intellectual hit parade which we have produced in varying formats since 2004, that test of immediate and real ...

The world's top 50 thinkers 2020 | Prospect Magazine

Specifically for architects, the third title in the Thinkers for Architects series examines the relevance of Luce Irigaray's work for architecture. Eight thematic chapters explore the bodily, spatio-temporal, political and cultural value of her ideas for making, discussing and experiencing architecture.
