The Difference between Interviews and Interrogations. The major differences between interviews and interrogations are that the goal of an interview is to gain information from a person who may have personally witnessed a crime, or otherwise gained knowledge about the crime under investigation; an interrogation is aimed specifically at determining if the person suspected of the crime is guilty or innocent, by utilizing special information gathering techniques and technology.

Eyewitness researchers have attempted to take what we know about memory and social influence and wrap it into a set of

# File Type PDF Interview And Interrogation With Eyewitness Evidence

procedures for interviewing eyewitnesses. This has resulted in a number of empirically based investigative interviewing tools. Some of these tools have been successfully implemented into current police practice.

## **Interviewing Eyewitnesses | SpringerLink**

- Both interview and interrogation are tools to obtain true and accurate information, but whereas interview takes place in a cordial and non threatening atmosphere, interrogation takes place in a situation where the interrogator looks like an aggressor and the suspect a victim
- Interrogation is a tool which is more of an emotional and psychological warfare between the interrogator and the suspect
