It's small and comes in peace. Until you want big sound – and really big bass – from your music player, computer (all platforms), stereo or portable listening device. The powerful subwoofer rocks. Two satellite speakers finish the job, bringing music, video and gaming sound to life. A touch increases or decreases volume, mutes or unmutes.

JBL Creature III! Now black is not quite as cool as white. And the Creature II's satellite speakers each glowed green underneath for a true otherworldly ambiance while the III's don't. (The III has a green light behind the subwoofer to indicate the unit is powered on.) But I felt truly lucky that I was given another chance to have a Creature ...

I purchased these new JBL Creature III speakers for a second computer we have in the house. I liked the original JBL creature speakers from 2003/2004 (which still work perfectly) so much that I decided to give the current version a try. These speakers are terrible. A cheap, low quality facsimile of the original product.
