LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Hope this is the right forum to post in. A combination of beer and @Vortex 's call for more testers led to my purchase of a Kustom Signals Golden Eagle 35.5 radar. Right now I only have a Uniden R1 and R7. I'd love to do some range testing with various settings, but first I wanted to get to know the ends and outs of the radar system.
